## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 9 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by ***Grosseholz et al (US Patent 5,980,376)***.

Grosseholz et al teach a method and apparatus for gutting fish. More specifically, the apparatus includes a means for transporting the fish 8-10, means for detection of when the fish enters the device 18, 22, 21 and 35, controls 59 for controlling the method executed in the device, and a first cleaning tool 36 and a second cleaning tool 43 or 48. As seen in the figures, the first and second cleaning tool move in opposite directions in respect to each other, after introduction in the abdominal cavity of the fish. Regarding claim 2, the first and second cleaning tool include a distal end edge which scrapes the inside of the fish cavity. As for claims 3 and 4, the cleaning tools follow the inside of the abdominal cavity of the fish and the cleaning tools move via mechanical connections.

### ***Claim Objections***

Claims 5-8, 11 and 12 objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim \*\*\*. See MPEP § 608.01(n). Accordingly, the claim\*\*\* not been further treated on the merits.
